## Selecting a Provider

### Out-of-Network but Participating Providers

When using an out-of-network provider, try to use a BCBS participating provider. Out-of-network but participating providers have signed agreements with BCBS to accept the BCBS approved amount as payment in full for covered services. However, because these providers are not a part of the PPO network, you must pay any required copayments and a higher deductible and coinsurance for your care.

When you go to out-of-network but participating providers, you usually don't have to submit claims. These providers, like network providers, submit claims to BCBS for you and the providers are paid directly by BCBS.

### Nonparticipating Providers

Nonparticipating providers have not signed agreements with BCBS. This means they may or may not choose to accept the BCBS approved amount as payment in full for your health care services.

You are usually required to pay nonparticipating providers directly and then submit a claim to BCBS for reimbursement. If you receive services from a nonparticipating provider, you may have to pay the difference between the BCBS approved amount and what the provider charges.
